CLASS OF 2011

The New Crew!

The latest crop of Top 100s continues the list's history of instruction excellence

SINCE 1996, *Golf Magazine* has scoured teaching grounds nationwide to find the best instructors in the game. We are proud to offer up the latest additions to our distinguished list, which has come to symbolize teaching excellence both in America and worldwide. Top 100s are selected every two years using both academic and peer review—no other list demands more from its members. The teachers at left were inducted in a special ceremony at the 2011 PGA Teaching and Coaching Summit held this past January in Orlando, Fla.
